Award of Contract for Wind Defender & Tow Drain at the Landfill

The Authority recently awarded a contract to Atlantic Lining Company (ALCO) for its windscreen and toe drain Project. The total bid came in 14% below the engineer's estimate. The project will consist of installing approximately 40.4 acres of windscreen on cells 1A, 1B, 2A, 2B, 5, and portions of Cells 3 and 6A as well as re-grading the toe drain in cell 2b to help with non-contact water ponding in the area.

Donald Fiske Passes Exam to Become The Authority's N-4 Licensed Operator

The Authority's Water Treatment Plant Operations Manager, Donald (Don) Fiske, recently passed the exam to become a NJDEP Industrial Wastewater Treatment N-4 Licensed Operator. Don will be The Authority's licensed operator on the record with the NJDEP, whereas The Authority previously contracted this service. Congratulations on this great accomplishment, Don!

KEEP IT CLEAN THIS HALLOWEEN

100 billion plastic bags are thrown away annually. This year, make a reusable bag part of your Halloween gear.

Do not litter! Put the wrappers from your candy treats in the garbage can and not on the streets.

Do your part to help keep Cumberland County boo-tiful this Halloween!

WE WISH YOU A HAPPY HALLOWEEN NIGHT. THANK YOU FOR DOING WHAT IS RIGHT!

What's New at The Authority?

Rowan Medicine Building

The Rowan Medicine Building sitework contractor has completed all sidewalks and curbs and has begun placing topsoil. Irrigation, seed, sod, and plantings, as well as preparation for paving the parking lot, will now be starting. Paving is expected to begin by the end of October. Building construction continues inside and out. Outside, the Alucabond Exterior Wall panels are almost done being installed and joints are being caulked. Inside, electrical devices, ceiling grid, flexible duct and paint are progressing daily. All ceramic tile and plumbing fixtures are installed.

Millville Library

The Phase 1 addition to the library is nearing completion. A transition is currently in progress, in which the library will relocate operations from their current building, into the addition. Once this is completed, the Contractor will renovate the existing building, initiating Phase 2.

Salem Courthouse TCO

For Building A, operations have started and are in the early stages. Materials are being delivered. The front entrance of Building A is 95% complete. Building B is 95% complete. The final fire alarm and fire pump testing is being scheduled. Furniture is being moved in, and the building is in preparation for a Temporary Certificate of Occupancy (TCO), expected by the end of October. Personnel have been moved out of Building C, and selective demolition will begin shortly.

Cape May Library

Exterior improvements to the building are nearing completion, including restoring the brick facades and wood windows, and constructing two small additions. Interior renovations are in progress, with drywall and metal ceiling work nearing completion in the multi-story portion of the building. The elevator tower is constructed, and is awaiting the elevator machine and the completion of the electric service to the building.

Cumberland Family Shelter

Bids were received in late July for two parallel projects at the Cumberland Family Shelter. One, a renovation of a building to house homeless families, and the other, an addition to the facility's Food Pantry building. DRK & Associates, Inc. was the successful general contractor for both projects. The residential building is expected to be complete early in 2024. The Food Pantry addition is expected to be complete late this year.

Cumberland Family Shelter

Vineland Board of Education Completion

All three schools, Dane Barse, John Winslow and Marie Durand were reopened on time for first day of class with all HVAC upgrades and window replacements complete.
